Proclamation

Your Community of Choice

Whereas, *the honorable and historic profession of surveying has provided answers to questions of land boundary determination since the earliest days of civilization. Surveyors have been the ones that have provided location and layout of roads, buildings, and other construction projects that have aided the advancement of civilization since ancient times. Surveyors were instrumental in the formation of layout of the property boundaries of the United States that has provided to our citizens the enjoyment of property ownership. Surveyors are counted among the founding leaders of our great nation. George Washington, Thomas Jefferson and Abraham Lincoln, all Presidents of the United States, set the standard for diligence, service and ethics which still guides the efforts of the modern surveyor; and*

Whereas, *it is the Professional Land Surveyor that is uniquely qualified to locate on the ground what are expressed in words in the legal documents that define property boundaries. It is the learned profession that is an integral part of construction projects from the beginning to the very end. It is the surveyor that provides the positioning of what is on the land, how the land is shaped, where the land is, and in construction provides the way for the contractor to build the project's structures in their proper place; and*

Whereas, *Professional Surveyors obtain their expertise through a combination of education and experience over a career spanning many years. This expertise comes from time spent in the classroom, the field, and the office. The continual advancements in instrumentation have required the surveyor not only to be able to understand and implement the methods of the past, but also to learn and employ modern technology in finding solutions to meet the challenges of the future. Today's surveyors work with other dedicated professionals from other disciplines to provide the best possible solutions to modern day problems that serve the interests of the public.*

NOW, THEREFORE, WE THE CITY COUNCIL OF THE CITY OF NORTH LAS VEGAS, do hereby proclaim March 21-27, 2021 as:

"PROFESSIONAL LAND SURVEYORS WEEK"

in North Las Vegas, and we encourage Surveyors and their respective professional societies to publicize this proclamation and promote a better understanding of the profession among members of the public.

IN WITNESS WHEREOF, *we have set our hand and caused the Seal of the City of North Las Vegas to be affixed this 8th day of March, 2021.*
